

HAZARD ASSESSMENT

Company Name:

Date:

Department or Area:

Rev Date:

Completed by (Name/Position):

Task/Activity	Hazard What is the source of harm? (i.e., sharp blade of a knife)	Assess Risk			Controls Consider the Hierarchy of Controls Current and Recommended (formal and informal)	Evaluate Next steps?
		Likelihood	Consequence	Rating		
		Select...	Select...	Select...	Current Controls:	
					Recommended Controls:	
		Select...	Select...	Select...	Current Controls:	
					Recommended Controls:	

Assess Risk	Rating	Hierarchy Of Controls
Likelihood: Is the hazard likely to cause injury Y/N Consequence: Can the hazard cause serious injury or illness Y/N	High Risk = 2 Yes's Medium Risk = 1 Yes, 1 No Low Risk = 2 No's	Elimination › Substitution › Engineering › Awareness › Administration › PPE
Hazard Categories: 1. Safety 2. Musculoskeletal Diseases 3. Biological 4. Chemical 5. Physical 6. Psychosocial

		Likelihood	Consequence	Rating		
		Select...	Select...	Select...	Current Controls:	
					Recommended Controls:	
		Select...	Select...	Select...	Current Controls:	
					Recommended Controls:	

For any recommended controls identified, consider creating an action plan with listed actions to be taken, who will be responsible and target date. Ensure hazard assessment is reviewed and updated as necessary (i.e., new processes, new hazards, risk changes, new controls implemented).

Assess Risk	Rating	Hierarchy Of Controls
Likelihood: Is the hazard likely to cause injury Y/N Consequence: Can the hazard cause serious injury or illness Y/N	High Risk = 2 Yes's Medium Risk = 1 Yes, 1 No Low Risk = 2 No's	Elimination › Substitution › Engineering › Awareness › Administration › PPE
